## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-5 are allowed.

### **Reasons for Allowance**

2. The following is an examiner's statement of reasons for allowance:

Prior art fails to disclose or fairly suggest:

- a reader for communication with transponder and including an antenna formed of a plurality of turns defining a central axis and an overall inner volume, wherein the antenna includes a first group of turns forming at least one first coil and a second group of turns forming at least one second coil, the first and second group of turns being power in phase quadrature and arranged so as to generate a total magnetic field with an approximately constant amplitude over substantially the entire length of the antenna along its central axis and decreasing rapidly outside the antenna as it moves away from the later, in combination with the remaining claimed limitations as claimed in independent claim 1 (claims 2-5 are allowed since they are dependent on claim 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Citation of relevant prior art***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 2821

Prior art Saitoh et al (USP. 6,137,447) disclose antenna for reader/writer.

Prior art Ward, Jr. (USP. 6,943,680) disclose identification system interrogator.
